

## IN WASHINGTON, D. C., EVERYBODY KNOWS COL. WILLIAM CAMP.

I find Pe-ru-na  
very valuable for  
rebuilding of a  
worn and tired  
system.

CHIVALROUS, high-minded, impulsive, generous, courteous, courageous, loyal, a believer in good fellowship, a lover of home, magnanimous to enemies, true to friends, is a reputation that any man may well envy. No man better exemplifies this description than Col. William Camp, whose testimonial is given below. His unique figure and charming personality is well known in the streets of the capital city of the United States. His word is as good as his bond. His frankness and truthfulness no one has ever questioned that knew him.

Read what he says concerning Peruna.

"I write to say that I have used Peruna and find it a very valuable remedy for coughs or colds and rebuilding of a worn and tired system, dissipating and eradicating that old tired feeling."—Col. William Camp, 1740 L St., N. W., Washington, D. C.

MR. CHAS. BROWN, Rogersville, Tenn., writes: "I feel it my duty to write you a few words in praise of your Peruna. I have tried many different remedies, but have found that Peruna is the greatest tonic on earth, and a perfect system builder. A friend advised me to take Peruna for indigestion, and it cured me in a short time. I was very weak and ner-

vous, could sleep but little at night, but Peruna cured that tired, all-gone feeling, and made me feel like a new man, so I heartily recommend it to all who are weak and run down. It will give new life and energy. "I cannot speak too highly of Peruna, and will not forget to recommend it." Peruna is manufactured by the Peruna Drug Mfg. Co., Columbus, Ohio.

Through an advertisement in newspapers the heirs of Pres. Griffin, an ex-Confederate soldier of Barrard county, have been found in West Virginia. He was a bachelor and went to that county in 1866 and by hard farm work accumulated a valuable blue grass farm and some money. He died last summer leaving a legacy of about \$12,000 to a brother whom he had not seen or heard of since the surrender at Appomattox. The elder brother has been dead five years but he left a widow and three children who are now on their way to claim the legacy. Press Griffin's brother was a poor blacksmith. Who says it does not pay to advertise?

### TO THE REPUBLICAN VOTERS OF ROCKCASTLE COUNTY:

I have this day announced as a candidate for the office of County Superintendent of Schools and believing that when a man becomes a candidate for office the voters of whom he asks the nomination should have an idea of the views of the candidate. Hence I shall give some reasons why I ask the nomination. I consider the office to which I aspire as the most important office in the county, an office which, if managed right can be made worth more to the people than any other office. What is worth more to the people of any county than the proper training and education of the young people of that county?

I know that to make the schools what the state intends them to be, must depend on the Superintendent and to improve the standard of the public schools the Supt. must be a real, live school man, a man who has studied the various needs of the schools and at the same time have the energy and ability to work for the betterment of the schools.

At the present time there is a great awakening all over the state for better or more efficient public schools and in order to bring the new School Law into popular favor will require careful management and a high standard of efficiency, acquired only by years of study and experience.

I have taught for a longer time than any teacher in the county and have an experience of eleven years as a member of the county board of examiners. I have done a great deal of County Institute work. I am the only member of K. E. A. in this county and feel that my training and experience fit me for the place.

I promise, if given the office, to be Superintendent in the full meaning of the term. My motto shall be better schools and square deal for everyone and shall devote my entire time to the upbuilding of schools of the county. I shall be a friend to each and every teacher and endeavor to make them my friends and by working in harmony with the patrons seek to steadily improve the schools. I know to do this will involve much work and possibly some worry but there is no other way to raise the standard. I am the only teacher of this county who makes a profession of the work. I promise that if given a chance to make a Superintendent that knows no pets or favorites, seeking only the improvements of the schools. I hope to see voters in their homes and give them my views in public between now and the election.

I ask at the hands of the voters that they each and every one as due their children, themselves, the state and also the candidates to study the needs of the schools to weigh carefully the claims of each candidate and measure the needs of the schools by the ability of their candidates and after giving the subject serious thought then vote the way their judgement tells them and I shall be satisfied with the result. Yours for better schools. W. R. DICKERSON.

SUPT. G. M. BALLARD

[From The Citizen, Berea, Ky.]

Editor The Citizen,  
Dear Sir:

Information reaches me that Mr. G. M. Ballard is a candidate for County Judge in Rockcastle County. Mr Ballard deserves to succeed. He is a "son of the soil" of Rockcastle Co. By his diligence and efficiency he has made a name and place for himself. Starting in life as a poor mountain boy he made the best of such opportunities as existed. Exhausting the resources of the district school he determined to go further. Accordingly he attended school at Berea College from 1892 to 1896 fitting himself for any position to which duty might call him.

For ten years he did faithful service as country school teacher, there laying the foundation for the high office of County Superintendent, which he has most successfully filled for two terms. Like other aspiring men Mr. Ballard has always looked to his own mental growth and advancement. In the midst of a busy life he found time for the study of law and in 1902 was admitted to the

Bar. Few men who aspire to office are better qualified to serve the best interests of the people.

In politics Mr. Ballard has always been a Republican. He has served in the councils of his party performing diligently and conscientiously the work assigned him striving to promote right principles and clean politics.

As County Superintendent he has brought up the schools of the County to a higher standard both in respect to attendance and efficiency of teachers. He has urged and inspired the teachers of the County to fit themselves for their profession by attending higher schools between terms and as a result few counties in Kentucky can boast of a higher grade of work done in the public schools.

Wherever he has been placed so far as my knowledge extends he has "made good" and here's hoping that he may again carry the banner of victory in his candidacy for County Judge. Respectively,  
J. W. Dinsmore.

C. L. Kluger, the Jeweler, 1060 Virginia Ave., Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney remedy to all suffers, as it cured me after the doctor's and other remedies had failed." Sold by Chas C. Davis.

FOR SALE.—If you are looking for a good farm at a great bargain; one that you can run machinery over, I have one that I don't need. Call on me at Wildie Ky. Jan. 22-25. R. H. LEWIS.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. R. L. McFERRON,  
Sheriff, Rockcastle County.

Modern business betters human environment, says Elbert Hubbard. It means gardens, flowers, fruits, vegetables; it means quick, safe and cheap transportation of people and commodities and messages; it means books, maps, furniture, pictures, play grounds, pure water, perfect sewerage, hope, light and love—because business gives opportunities for all to work, earn, grow and become.

Business consists in the production, transportation and distribution of the things that are necessary to human life.

Through this existence of facilities we educate the best that is in us; in other words, we get an education.

Inasmuch as business supplies the necessities of life, it is impossible to have a highly evolved and noble race except where there is a science of business.

The world of commerce is just as honorable as the world of art, and a trifle more necessary.

Art exists on the surplus that business men accumulate.

Art, literature and music subsist on the sufferage, patronage and encouragement that business men supply.

Business means taking things from where they are plentiful to where they are needed.

Business means making things that people want.

Business is a human service.

Therefore Business is essentially a divine calling.

Once men believed religion to be the chief concern of mortals here below.

Gladstone once said "Only two avenues of honor are open to young men of England—the army and the church."

This has been the prevailing opinion of the world for nearly two thousand years, and is one reason why the dark ages were dark. During these years of night the fighting man was supreme. It was a long panic, and human evolution was blocked through fear. The race crawled, crept, hid, dodged, secreted, lied and nearly died.

We now say that business is the chief concern of humanity. Business is intelligent, useful activity. The word "business" was coined during the time of Cnaucer, by certain soldier-iristocrats, men of the leisure class, who prided themselves upon the fact that they did no useful thing. Men of power proved their prowess by holding slaves, and these slaves did all the work. To be idle showed that one was not a slave.

But this word "business" first flung in contempt, like Puritan, Methodist, and Quaker, has now become a thing of which to be proud. Idleness is the disgrace, not business.

The world can only be redeemed through business; for business means betterment, and no business can now succeed that does not add to human happiness.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor. There is nothing else to live on or by. When strength is full and spirits high we are being refreshed—bone, muscle and brain, in body and mind—with continual flow of rich blood. This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Capt. Henry Waddle, with other detectives, are waiting in this city a few days before they go to Pine Knot to make an attempt to arrest Berry Simpson and others wanted by the United States authorities. A forerunner was sent this week to locate the men and find out all that was possible. Capt. Waddle said to a Times reporter yesterday it would be no use in his going down in that county unless he knew exactly where to locate his men. The man sent out will report to Capt. Waddle and then he will know what steps to take.

It is reported here that Simpson with others, are hiding out in a cave near Pine Knot and will resist arrest to the last. It is said they are well prepared with all kinds of shooting artillery. Capt. Waddle and his men were to have gone Monday night, but Simpson got wind some way of the fact and they abandoned the trip. Likely as not a fight will ensue when they attempt the arrest. Capt. Waddle will take enough men to put up a good fight should it become necessary. —Somerset Times

Union Depot, presented at the Court House last Monday evening was well received by the large audience, who witnessed the performance. Fifty characters were represented and each and every one did well his or her part. Miss Ida May Adams, under whose leadership the play was presented, displayed much ability in training the different ones who took part. The proceeds amounted to about \$36 which amount will go to buy outfit for the Junior ball team.

The Republican committee met Wednesday, and was called to order by Chairman, Judge L. W. Bethuram, who at once arose and tendered his resignation which was accepted. The name of U. G. Baker was presented and he was unanimously elected chairman to fill the unexpired term John Robins resigned as Committeeman in Broadhead precinct, and Charley Hurt elected to fill the vacancy.

The question of a manner and time of selecting nominees for the various county offices, was then considered, each of the forty or more candidates being called upon to express his wishes as to the manner of making a choice and the time. Without a single exception, every man asked for a primary, and with but few exceptions, the early primary asked for. The larger majority asking that the primary be called for sometime in May, the Committee named Saturday, May 15th, as the eventful day.

Geo. Furguson, our new marshal, is proving himself the right man for the place. George is trying to do his duty and if he gets the support from the citizens that he should have, will make a good officer.

We call attention to the announcement of Mr. Taylor Clark as a candidate for jailer, subject to the Republican primary called for May 15th. Mr. Clark is a successful East side farmer and one of the county's most respectable citizens.

R. K. Powell has sold his delivery wagon to E. B. Brown. Mr. Powell will likely locate on a farm. He is a good citizen and we trust that he will decide to remain in Mt. Vernon, as we always want the good to stay, and if any go let it be the bad.

Those present were Mesdames, Sambrook, Clark, Quiggins, Phillips, Lemonds, Davis, Cockrell, H. W. Rice, C. E. Rice, J. E. Woodall, R. A. Whitehead Geo. Pope, Miss Cora Stark and Miss Jessie Bowman.

The members of the Durham Bottling Works, with one exception, are all heavy weights. Mr. E. D. Durham, of this city, President of the Bottling Works, tips the beam at 235; Mr. R. H. Durham, of Columbia, and J. W. Durham, of Greensburg, brothers of E. D. Durham, and stockholders of the Bottling Works, weigh 215 and 225 respectively. The jumbo of the Durhams, however, is Mr. Fred L. Durham, of Broadhead, a cousin of the above named, who will travel for the Bottling Works this season. He weighs 325 pounds. The combined weight of the four Durhams is exactly 1,000 pounds. The only small man connected with the Bottling Works is Mr. S. P. Thurman, Secretary and Treasurer, but he is only small in size, and what he lacks in avoirdupoise is made up in efficiency and hustling qualities.—Mirror Elizabethtown.

REDD:—Dr. R. G. Redd, after an illness lasting more than twelve years, died last Sunday night at the home of his brother, Mr. Charley Redd, Crab Orchard. Dr. Redd, in his younger days and before affliction came upon him was a very brainy and active man and was a very Chesterfield in appearance. From the Montana Blue Book, we get this bit of interesting history regarding his life and life's work. He was born in Knox county Ky., August 16-1842; studied medicine in the Ohio College of Medicine Cincinnati graduating from that institution in 1869 and from Bellevue Medical College, New York in 1871; practiced medicine in Rockcastle county two years, when he entered the U. S. Army as Assistant Surgeon acting between times in Kentucky, North and South Carolina, and Fort Lincoln, Dakota, finally accompanying the Fifth Infantry to Fort Keogh in 1877. In 1881 he resigned from the army and entered the practice of medicine at Miles City Montana; was elected Mayor of that city in 1889 and in the first Legislative body that ever assembled in Montana, he was the Democratic Senator from Curtis county, and until force to leave his work because of failing health was an important factor in that new made state.

Returning to Kentucky about twelve years ago, he has since made his home at Crab Orchard with his brother and for many years has been almost as helpless as an infant. His remains were laid to rest Tuesday afternoon with Masonic honors in Crab Orchard cemetery.

Peace to his ashes, glory to his immortal soul.

WOULD LIKE TO SEE A GOOD ROADSCAMPAIGN.

[From Courier Journal contributed by Dr. A. G. Lovell.]

Some repetitions of a former article is unavoidable in this, but the question of better and cheaper roads for the general public, and for the farming class in particular is one that should enlist influential men in every community. The everincreasing traffic and the prices that farm products command are strong reasons why the country roads should have more attention. The constant improvement in service, and, at the same time, reduction of expense of automobile travel, suggests an exchange of commodities between communities that previously had very little interest in common. Moreover, it would in a measure make some communities more independent of the railroads and enable them to secure better accommodations at the hands of said companies. It would give an impetus to a kind of travel that would afford pleasure, be conducive to health and prove profitable in many ways. The question very naturally arises: "How are these things to be brought about?" I answer: "By a campaign of agitation and education."

If every county would select a short piece of road over which there is a great deal of travel, and much heavy traffic, and build it according to the latest and most approved methods, it would prove an object lesson worth more than volumes of theory. It has been demonstrated that the best country road consists of a combination of macadam and asphalt. "The macadam highway with a strip of asphalt in the middle" is destined to be the road of the future. But, you say, asphalt roads are too expensive; we are not able to build them! It is not so. The asphalt dressing will cost less than half the cost of the macadam. It consists of a fine-grain sand rock saturated with bitumen. This sandstone is crushed or broken to

the same consistency as the limestone and spread over the middle of the road, about the same depth as you would cover it with screenings or gravel to make it smooth. Heavy traffic will in a short time mix and grind this asphalt into the other stone. This soon becomes smooth and elastic, is impervious to water, and dust will not accumulate on it.

Several of the States have enough native asphalt available to supply local demands. Kentucky is especially fortunate in that particular; some of her properties have been developed and have proven valuable, but she has many times more undeveloped properties of this kind than are now in operation. They consist of segregated lands in different localities, which makes an asphalt trust in Kentucky untenable and promises to better subserve the interests of the people.

Your correspondent would be delighted to see others take this matter up and inaugurate a "good roads" campaign that will help to bring our grand old Commonwealth to the front.
